- 5" Heat Shrink Tube
- 3" Heat Shrink Tube
- (2) 1" Small Heat Shrink Tube
- 10-12 AWG Butt Splice
- (2) 12 or 16 AWG Butt Splices

### Ordering Information

Example Configuration	RCK	Weight
RCK	Roof Clips	1.2 Lbs.
RDK	Downspout Hanger	0.6 oz.
RGSK	Roof & Gutter Splice Kit	2.0 oz.

### Description

RCK roof clips are used to secure heat trace to rooftops. Roof clips can be used on most types of roofing surfaces with self-regulating and constant wattage heating cables. The kits contains enough double clips to complete 7 linear feet of roof edge.

RDK downspout hangers are used to suspend heat trace in downspouts to melt ice and ensure proper drainage. Downspout hangers can be used with constant wattage or self-regulating heating cables. Downspout hangers are secured to gutters with a sheet metal screw (not supplied).

The RGSK splice kit is used for splicing two self-regulating or constant watt cables together in the field using industrial grade heat shrink with integral adhesive. The heat shrink has an temperature range of -67°F to 230°F and is constructed of polyolefin with a 3:1 shrink ratio and an internal sealant to ensure a watertight, super strong seal.
